

NETECO IT Systems participation at the 11th INFOCOM SECURITY was a full success.

Kos, Greece, 26 April 2021 – NETECO IT Systems participation at this year's **11th Infocom Security Conference** which was held Online from the **21st until the 23rd of April** was a full success.

This year Infocom Security Conference was attended by more than 3.000 delegates from the broader IT and Telecommunication Industry from Greece and Southeast Europe.

The participants had the opportunity to attend over **70 speeches, presentations, discussions, and workshops** by experts in the field of cyber security and data protection from Greece and abroad.

The presentation of the CEO / CTO of NETECO IT Systems Mr. Marcus Kuechler "**Network meets Security - The LANCOM Firewall**" was attended **live** by over **370** participants, attracting excellent reviews and great interest.

This Infocom Security analyzed all aspects of information security, highlighting the challenges that have arisen, best risk management strategies, cutting-edge solutions for protection IT infrastructures, the balance between privacy and security as well as the key role of Cyber Security Awareness as a pillar of culture-building and full awareness of the seriousness of cyber security by employees.

The presentation of NETECO IT Systems can be viewed at the following link:
